

MUKDEN BATTLES.

Kuropatkin's Attacks Failed Everywhere and the Whole Line is on the Retreat.

LOSS ON BOTH SIDES ENORMOUS.

Russians Alone Had 15,000 Wounded and Are Being Taken to Mukden From All Directions.

In Number of Fatalities the Four Days' Engagement Ranks as One of the Bloodiest Battles in the World's History.

London, Oct. 15.—The Daily Chronicle's correspondent at Yantai, telegraphing on October 12 via Fusan, October 14, says: "The Russian attack failed everywhere and they are in full retreat along the whole line, pursued by the Japanese. Thirty Russian guns were captured. The Japanese turning movement is pressing the Russians back to Mukden. The Russians made 16 counter attacks with splendid bravery, sacrificing themselves freely but unavailingly."

A dispatch to a news agency from Mukden, timed 2 p. m. Friday, and received by way of Paris, says the Japanese have gained a great victory and that the Russian lines are withdrawing slowly northward, having suffered heavy losses. The battle continues and dispatches are strictly censored.

Mukden, Oct. 15.—The fighting raged Friday with the same bitterness as on the previous days of the engagement and the result is still in the balance. The losses on both sides are enormous, that of the Russians being 15,000 wounded. Wounded soldiers are being brought in from all directions. The roads are crowded with long trains of wagons, baggage and transport wagons, as well as ambulances being pressed into service, even Chinese two-wheeled carts filling the mandate of the military. Men afoot are limping in, using their guns as crutches, the less severely wounded supporting their comrades, after a first aid dressing on the firing line. Even across the fields you meet them, taking the shortest and straightest road for help and shelter. It is the most pitiful feature of the bloody drama being enacted at the front, when, stiffening with wounds, pain-racked bodies sink to the roadside after the support of the danger and glory of the active fight have been withdrawn.

In the distance the sounds of battle are still plainly heard. The rain has ceased and the sun is shining serenely.

St. Petersburg, Oct. 15.—The great feeling of concern which existed in high circles in the Russian capital Friday night by no means equals the foreboding of coming disaster pervading the general public which is indulging in the deepest pessimism.

In the absence of official news the public is feeding on the wildest rumors of defeat suffered by Gen. Kuropatkin. The fact that no word regarding the battle has been officially given out only confirms the popular fear.

Dispatches from the front give a vivid picture of the desperate character of the fighting along the whole line. The Russian plainsmen have been forced to engage in hill fighting, which is little to their liking. There have been desperate and repeated attacks on almost inaccessible positions, which leave no question of the resolution and gallantry of the Russian forces. Guns have been captured and recaptured in fierce hand-to-hand fights, while a pitiless downpour of rain, the inevitable accompaniment of a great battle, has flooded the trenches and drenched both armies without allying the desperate conflict.

The latest word directly from the field of battle is a Mukden dispatch in which it is stated that 15,000 Russians had been wounded which, together with Friday's casualties, would make the total probably exceed the figures of Liao Yang, and make the fight rank as one of the bloodiest battles in history. A pitiable feature is the coming of thousands of wounded to Mukden. The roads and fields are covered with crippled men dragging themselves to the shelter of the hospitals, the wounded helping each other as few able-bodied men are being spared from the fighting line.

LEXINGTON TROTS CLOSE.

Nearly \$75,000 Was Distributed in Stakes and Purse Races.

Lexington, Ky., Oct. 15.—Friday closed the ten days' trotting meeting at Lexington for 1904 during which nearly \$75,000 was distributed in stakes and purse races, six world's records were broken and several stake records were lowered. Most of horses here except few belonging east shipped to Memphis.

The favorites won the three races on Friday's card in three straight heats. Snyder McGregor captured the Stoll, for four-year-old trotters. Nancy H. won the second race, 2:20 class, pacing, and Tom Axworthy won the third race, 2:25 class, trotting.

In the first heat of the second race Royal Bell, a bay gelding owned by G. H. Camp, of Oswego, N. Y., and driven by George Swisher, fell dead at the distance flag. Royal Bell was by Maple Pole. The betting on him was 8 to 1 before the race. The other drivers noticed that he was puffing hard in the stretch but he was a close second to Nancy H. Just before the distance flag was reached he suddenly dropped dead and fell against the fence, breaking through it and overturning and smashing the sulky. Swisher was thrown from his seat but sustained only an injured knee. Camp paid \$1,000 for the horse. In this heat Bourbon took second money, Mamie Kingsley third and Nancy H., the winner, first and fourth.

WAS VOTED DOWN.

Proposed Amendment to Divorce Canon Rejected by the Episcopal House of Deputies.

HOUSE OF BISHOPS MAY YET ACT.

Present Law Allows the Remarriage of the Innocent Party to a Divorce Granted For Infidelity.

Practically the Whole Strength of the Middle Western States Declared For the Proposed Reform in the Church.

Boston, Oct. 15.—The house of deputies of the Episcopal general convention at the close of a four days' debate Friday rejected an amendment to the divorce canon, which sought to prevent the remarriage of divorced persons by clergymen of the denomination. While the house of bishops may yet act on the question it is certain that no change will be made by the present convention.

The present law of the church which has been in operation since 1895 allows the remarriage of the innocent party to a divorce granted for infidelity. At several conventions attempts have been made to repeal this law and when a vote was taken Friday by the house of deputies sitting as a committee of the whole, on the question of reporting the proposed amendment to the house itself, the reformers were successful by a vote of 214, to 191, and this vote was regarded as representing the actual strength of the contending forces.

The final vote, however, was taken by dioceses and orders, and where a diocese was evenly divided in sentiment, its strength was counted in the negative. The vote by dioceses was clerical for the amendment, 30; against, 21; divided, 10.

Lay vote for, 25; against, 24; divided, 16.

Practically the entire strength of the middle western states, the stronghold of the high church party, declared for the proposed reform, but the Pacific states and a number of the southern states voted against a change of the present canon. The diocese of New York opposed the amendment while that of Pennsylvania favored it. In New England, Vermont, New Hampshire and Western Massachusetts voted for a change, as did the lay deputies from Rhode Island. The clerical deputies from Maine favored the amendment, but the votes of Connecticut and Massachusetts were cast in the negative.

Among other recommendations the surgeon general includes one for change of title of medical officers and asks for legislation to make the following changes: In place of surgeon general, surgeon admiral; and in the other grades, medical director to become surgeon captain; medical inspector, surgeon commander; surgeon, surgeon lieutenant commander; passed assistant surgeon, surgeon lieutenant and assistant surgeon, surgeon lieutenant (junior grade). The surgeon general renews his recommendation for employment of women trained nurses in the medical department of the navy and reiterates nearly all the recommendations which failed of attention by congress last year.

AN OCEAN TRAGEDY.

Schooner Struck on a Bar and a Dozen Persons Perished.

Chatham, Mass., Oct. 15.—A small part of the forward section of the hull and a slanting foremast stood as mute reminders Friday of the ocean tragedy enacted Thursday night when the three-masted schooner Wentworth, of Monckton, N. B., struck on Chatham bar during a raging northerly gale and all the 12 persons on board perished in the sea.

Little could be done in an effort to aid the crew of the disabled craft, as the Cape Cod life savers from two stations were unable to launch their surfboats in the tremendous seas. A shot line was fired to the schooner which lay not much more than 300 yards from shore. There was one answering pull and the life savers thought that they heard a voice above the roar of the surf crying "All right," but beyond this there was no sign of life on board the craft.

The Wentworth was bound from Hillsboro, N. B., to Newark, N. J., with a cargo of plaster rock. On board, so far as known, were the captain, his wife and three children, and a crew of seven men.

FINANCIAL REPORT.

Treasurer Roberts Tells of the Transactions of the Treasury During the Fiscal Year.

RECEIPTS WERE \$540,631,749.

Net Ordinary Expenditures During Same Period Were \$582,402,321 an Increase of \$75,903,314.

There Was An Unusual Expense of \$50,000,000 on Account of Panama Canal and \$4,600,000 Loaned to World's Fair Co.

Washington, Oct. 15.—Ellis H. Roberts, treasurer of the United States, has submitted to Secretary Shaw the annual report on the transactions of the treasury during the fiscal year ended on June 10, 1904.

The net ordinary revenues are shown to have been \$540,631,749, a decrease of \$19,764,925 as compared with 1903, and the net ordinary expenditures \$582,402,321, an increase of \$76,303,314. In receipts the principal falling off was \$23,205,017 in customs, while in the disbursements the important increases were \$11,423,440 in commerce and labor, \$60,788,580 in treasury proper, and \$20,338,067 for the navy. Unusual expenditures were \$50,000,000 on account of the Panama canal and \$41,600,000 lent to the Louisiana Purchase Exposition Co., which has now been nearly all repaid. But for these, the recorded deficiency of \$41,770,571 would have been changed to a surplus of \$12,829,428.

The operations affecting the public debt exceeded those of the preceding year and amounted to \$699,660,941 in receipts and \$638,924,379 in disbursements. The aggregate receipts for the year were therefore \$1,240,292,690, and the aggregate disbursements \$1,221,326,701. For the first three months of the current fiscal year the revenues show a falling off of \$6,516,373 and the expenditures an increase of \$18,073,839.

The trust funds held for the redemption of outstanding notes and certificates amounted at the end of the year to \$978,084,569, an increase of \$85,015,702 in 12 months. By October 1 there was a further increase to \$1,014,779,969.

The redemptions of United States notes in gold amounted to \$11,081,068 for the year, and those of treasury notes to \$474,126.

In consequence of the deficiency in the revenues, the cash in the offices of the treasury and mint declined during the year from \$170,020,562 to \$127,520,264 and by October 1 to \$125,964,888. The available balance, including deposits in national bank and other credits was \$238,686,114 on June 30, 1903, and \$151,414,162 on October 1, 1904.

The actual gold coin in circulation on October 1 is placed at \$641,844,863 in coin and \$486,512,139 in certificates.

Since July 1, 1900, there has been a growth of \$463,991,862 in the money in circulation, or an average of nearly \$116,000,000. On October 1 the circulation reached the maximum of \$31.16 for each person, and the proportion of gold to the whole was 44.03 per cent.

In the current fiscal year the demand for small bills, in spite of all previous additions, has been unceasing. Experience has made it clear that the stock of small notes is hardly sufficient. The department has employed all its resources; but these are limited, for the issuance of silver certificates can not exceed the silver dollars available and the United States notes have a volume fixed by law.

EXECUTIVE CIVIL SERVICE.

Census Bureau Report Shows That There Are 271,169 Employees.

Washington, Oct. 15.—The census bureau Friday issued a report on the executive civil service of the United States showing a total of 271,169 employees, embracing all persons employed in the executive branches of the federal government except enlisted men in military and naval branches. This aggregate embraces 120,786 employees not included in the reports made by the heads of the executive departments. Of these 120,786 all but 17,710 were exempt from examination under the civil service rules. The exempt list includes 74,196 postmasters, 10,855 employees at non-free delivery post offices and over 18,000 employees at navy yards and stations, appointed under navy yard regulations. The post office and treasury departments give employment to three-fourths of the executive civil service.

Weather Forecast.
 Fair to-night and Sunday.

JUDGE BENNETT would make an ideal (?) Congressman—perhaps. Mr. Kehoe does make one in fact. Therefore it is he who is entitled to the vote of every Democrat in the district and as many Republicans and Independents who care to reward him for past faithful services.

SINCE the passage of Dingley's high tariff law 238 trusts have been formed. Is it any wonder that every suggestion to revise this robbery tariff should meet with the organized opposition of these plunderers of the people? They prospered under McKinley; they have further fattened under Roosevelt; and if he is re-elected they will grow in power until they dominate every form of industry and crush the individual manufacturer, merchant and workingman into atoms.

No matter what the Republicans may write into their platforms, or what promises of peace and conservatism they may make they can not get away from the personality of Roosevelt, the vain, the arrogant, the wilful. He is the real issue. They may pledge themselves to an orderly, economical administration of affairs, with no thought of imperialism and no quarter for the trusts, but if he is re-elected he will feel himself licensed to conduct the Government to suit his errant fancy. There is no needs of courts or laws with this imperious Rough Rider in the saddle. He will flaunt his party, overthrow precedent and pursue the same tactics that have during his brief term struck terror to the hearts of peace-loving citizens everywhere.

ELEVATED RAILWAY.

City Dads Called in Extraordinary Session to Hear Protests Against the "Wall Street Viaduct."

City Council met in extra session last night to discuss the "elevated railway" problem of Second and Wall streets.

It seems that the street railway company, in reconstructing their track, raised the grade about a foot at this point, which makes an ugly and dangerous obstruction to wheeled traffic passing over those thoroughfares. Besides being unsightly, the elevation gave promise of making plenty of trouble for adjacent property owners after every heavy rain.

Council was served with a written protest from Mr. Joseph H. Dodson, which carried threats of a damage suit against the city, unless the matter was remedied at once. Mr. Dodson also addressed the meeting, and verbally cautioned the "dads" to immediately have the nuisance abated.

The Mayor explained that the work was undertaken by the street railway people without consent or knowledge of Council and that he did not know of it until served with a notice by the Sheriff. Mr. Oliver Greenlee and others were heard on the subject and it seemed to be the general opinion that there must be a "come off." It took nearly two hours to arrive at this conclusion, however, and the discussion finally ended by the Chair appointing a committee of five to go with the City Engineer this morning and make a "profile" of the grade wanted, wrap it in "red tape" and carry same to the street railway magnates and whisper that there must be "something doing."

C. P. Dieterich & Bro. were given permission to erect a greenhouse in the rear of their Market street premises and Council adjourned.

Newland, it is said, will win a wager of \$500 in gold and a famous young beauty for a wife.

Automatic suicide may be substituted for a warden turning the current into a condemned man at Ohio legal electrocutions. Killing fellow-beings is one of the dreads of the warden, and this often prevents securing the best man for the ordinary duties at the head of the big prison. A proposition has been submitted to the penitentiary managers to put in a clock-works system whereby the condemned man will take his seat in the chair and at a fixed minute the current will be automatically turned into his body.

Detective Jack Bingham is doing some clever work dressed in the garb of a common laborer. The other day he went to work in a gravel pit with a gang of colored men near Kenova. That evening three of them, suspected of robberies, accompanied Bingham to Catlettsburg for whisky. The three drank plenty and when what was on hand gave out requested Bingham to purchase a new supply. He told them that his funds were exhausted and they stated that they had some goods hidden away that could be traded for booze, taking the officer to a place where they brought forth some shoes and dry goods. Jack soon had the parties caged and went back to the hiding place where enough stuff to start a general store was found.

The Liberty Belles.
Of the many strong attractions to be seen here during the present season, it is safe to say none will be received with more enthusiasm than Fred Berger's delightful comedy, "The Liberty Belles" and radium ballet. With a record of twenty-two weeks at the Madison Square Theatre, New York, with its wealth of scenery and beautifully gowned young women, comedians, singers, dancers and specialty artists, there should be no question about a capacity audience at the Washington Friday, October 21. Seat sale opens at Ray's Wednesday morning.

WONDERFUL SATURN.

Splendid Opportunity This Month to View the Rings of This Mysterious Planet.

If you have never seen the rings of the magnificent planet Saturn, remember this month affords an exceptionally fine opportunity of viewing the mysterious heavenly body, it being evening star during October.

Saturn now hangs conspicuously in the Southern sky. His rings never appear more beautiful than at their present inclination, as year by year they close up finally to stand edgewise to the earth and thus become invisible.

The best time to indulge in this optical feast is between 9 and 10 o'clock for this latitude.

The rings are now inclined about sixteen degrees to our line of sight, so that they appear in the form of a narrow oval, with the enclosed ball of the planet projecting on either side.

A small telescope or an extra powerful opera glass will bring the rings into view. If you have neither, hunt up some one who has, or better still, patronize the street astronomer, if you happen upon him while in the city. A good look will amply repay you for your trouble. The writer took his first peep at that wonderful world many years ago through such an instrument and the impressions then received have never been erased from his memory.

Saturn revolves around the sun in a little under twenty-nine and one-half years, at a mean distance of 896,000,000 miles. Its diameter is about 75,000 miles. The apparently little rings seen through the glass are almost 175,000 miles across.

Mr. Harry B. Owens, just returned from the World's Fair, says one of the best attractions on the "pike" is the "Galveston Flood," for which Mr. John Pollitt of this city makes such a successful "spiel." Harry says it is almost worth a trip to the fair to hear this single feature, but you want to keep in the background to get the best results, for John "falls down" when he spies a Maysville crowd.

Mrs. Mary J. Ellis, aged seventy-seven, a highly respected pioneer resident of Sprigg township, died suddenly of paralysis of the heart Thursday morning of last week at West Union. The place of her death had been her home her entire life. She leaves one sister, Mrs. S. F. Harding of Aberdeen. Her remains were laid to rest in the family burying-ground on the Sunday following her death, in the presence of many sorrowing neighbors, friends and relatives.

Councilman Bob Ficklin sat on the gunwale of the wharboat yesterday fishing. He wasn't particular as to what he hooked, so many a little "chub" fell a victim to Robert's craftiness. Finally the manual labor required in hauling 'em in grew monotonous and the City Dad fell asleep and saw a vision of "Greater Maysville," wherein the streets were paved with gold and Councilmen were not bothered with bad sidewalks. Just then his pole was given a yank, and it was with the greatest difficulty that he was restrained from jumping into the water for what he thought was a whale, but which proved to be an ordinary water-dog a yard or less in length.

"The farmer who is in favor of the growers' association and still refuses to sign, is the worst enemy to the cause. If the association fails it will be through this class of producers, and when the combine has the farmer completely at its mercy they will have the balance of their lives in which to kick themselves for their failure to help when help would have meant success and success would deliverance from the tyrannical have meant rule of the tobacco trust. Mark this prediction—if the association fails this year when everything is ripe for success, tobacco will go begging at an average of less than 7 cents, and another year will put it to 5 cents or less. The Continental may pay a reasonable price this year just to kill the association 'good and dead,' but look out next year! And the next!"—Dover News.
